## *and Best of All* **ROSEDALE ROSES**

OUR ROSES are strong, sturdy, tested bushes that can be grown with little trouble by anyone. All Rosedale Roses are two-year-old plants, budded on Multiflora understocks, and have been grown out-of-doors exclusively for garden planting. We never handle the discarded forced Roses which are dumped from greenhouses. The way to grow good Roses is to begin with good plants. The Rosedale Roses are the best plants that we know how to produce. There is no comparison between the results obtained from Rosedale Roses and those given by inferior stock.

### ◆ ◆ ◆ PRICES ◆ ◆ ◆

Rosedale Roses are now offered at the lowest price. The heavy, two-year-old plants are handled in the same careful manner as always, and are guaranteed true to name. We make no substitutions without correspondence.

*Spring, 1934*

# FRENCH HYBRID LILACS

ALMOST everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow, and bloom when they are even younger. The flowers are relatively huge, and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. There are several hundred varieties, from which we have selected fifteen single and double kinds in a complete range of color.

Belle de Nancy. Double; rose-lilac.

Charles Joly. Double; crimson-purple.

Charles X. Single; bluish violet.

Congo. Single; dark ruddy purple.

Jan van Tol. Single; pure white.

Katherine Havemeyer. Double; light violet.

Marie Legraye. Single; creamy white.

Miss Ellen Willmott. Double; pure white.

Mme. Casimir-Périer. Double; white.

Mme. Lemoine. Double; snow-white.

Mrs. Edward Harding. Double; reddish purple.

Philemon. Single; pale purple.

President Fallieres. Double; pale lavender.

President Grevy. Double; soft bluish lilac.

Souv. de Ludwig Spaeth. Single; crimson-purple.

All hybrid varieties, 2 to 3-ft. plants, budded and dug with ball of earth, \$1 each; 3 to 4 ft., \$1.50 each. Larger plants up to 8 ft., available in some varieties.

Vulgaris (Common Purple Lilac). The old-fashioned, fragrant kind. 2 to 3 ft., 75 cts. each; 3 to 4 ft., \$1.

Vulgaris alba (Common White Lilac). Charming old variety. Very sweet. 2 to 3 ft., 75 cts. each; 3 to 4 ft., \$1.
